In response to your feedback and enquires:						
(1) Course organization: I will highlight notes more and will not read off the sheets as much.						
From previous class feedback in 2009 course this has improved from: 3 at fair, 1 at poor, and 1 at very poor to 2 at excellent, 6 at very good and 2 at good! In addition, I will enlarge the font of the course notes and leave some class time for questions and discussion.						
(2) I will continue to make the Alberta Osmolarity rule clear						
(3) A chat room to share clinical experiences will be coming eventually.						
(4) Slides requested ahead of time. Comment: Very funny! However with respect to "Naturopathic Time" sign up rarely occurs 2 weeks prior to the course date!
