Why would you recommend/not recommend this course?		
<i>It is practical to the treatments that I do in my office giving me confidence to deal with emergencies.</i>		
<i>Very applicable to ND specific practice.</i>		
<i>Necessary to keep safety protocols in mind. Be prepared to protect patients and yourself professionally.</i>		
<i>Excellent info lots of clinical examples, great sources, well referenced.</i>		
<i>It is geared towards what we experience in clinic scenarios which is a great way to learn.</i>		
<i>Efficient, great knowledge and very practical.</i>		
<i>Useful in general for feeling better prepared for clinical emergency situations.</i>		
<i>Helpful for IV preparedness.</i>		
<i>I enjoy Dr. Prytula's learning style.</i>		
<i>Good content</i>		
<i>Good prep for any complications that may arise and practice for the "what ifs".</i>		
What would you change about this course?		
<i>Perhaps the flow of the chart from top to bottom and the manual front to back.</i>		
<i>Offer a course in Edmonton</i>		
<i>Not much maybe some more videos.</i>		
<i>Hopefully in Winnipeg one day</i>		
<i>A bit more clarity to the practice scenarios (steps, clarity of more vitals, details act) missing info may lead to improv</i>
