	Yes	No	
Did you feel confident using IV Therapies before the course?	12	6	
Do you feel more confident using IV Therapies after the course?	19	0	
Will you be using IV Therapies in the future?	18	0	
Would you recommend this course to other ND's?	19	0	
Have you used IV therapies in your practice prior to coming here?	12	6	
	0-2 years	2-5 years	5+ years
If yes how long have you been using IV's in your practice?	9	5	2
How long have you been a licensed professional?	9	5	5
Why would you recommend/not recommend this course?			
<i>Clear, informative, clinical.</i>			
<i>Thorough and safe. Complete - Close to SK</i>			
<i>Very applicable information that I can use in practice immediately to prevent or manage incidents</i>			
<i>Great informative course especially for beginners. Good to hear experiences of various NDs.</i>			
<i>Lots of hands on practice. Easy to ask questions and have them answered. Appreciate the chart.</i>			
<i>I would recommend the course because it's the best emergency course in Canada that's specific to naturopathic practice.</i>			
<i>This is better than previous emergency courses I have taken (NCLS & in school) but I found it long and some first aid stuff was pretty basic or not emergent conditions.</i>			
<i>I would recommend this course to gain confidence in emergency situation and preventing emergency situations.</i>			
<i>Applicable, taught by ND's with experience/knowledge.</i>			
<i>To become much more familiar with and comfortable handling IV related complications.</i>			
<i>As a new doc, it gives reassurance and confidence when an emergency situation occurs.</i>			
<i>Fool proof design; simple explanations and tons of practical application in intimate settings.</i>			
<i>I would as these skills are crucial in clinical setting and practicing was very helpful (hands on). Also, this course is mandatory for my license. (AB)</i>			
<i>A great base line to prepare.</i>			
<i>Would recommend for building confidence in responding to potential emergencies that come with more aggressive therapies.</i>			
<i>Much more relevant than emergency courses taught in school.</i>			
<i>Great course, I would recommend to anyone interested in these therapies and techniques.</i>			
<i>Yes, it makes you more comfortable and better prepared for any emergency situations.</i>			
<i>Yes, helpful to work through emergency situations and get comfortable with all of the kit equipment. Mandatory for license.</i>			
<i>Would not recommend it as an emergency course for NDs not using IV therapy.</i>			
What would you change about this course?			
<i>Get our emails so we can have updates as course requirement is once/4 years.</i>			
<i>I'd like to hear more personal stories or experiences of emergency med situations that have happened in naturopathic practices - what steps were taken?</i>			
<i>What was outcome and what was learned from the experience?</i>			
<i>It would be really great if CPR could be included in this course. A lot of the info is replicated and could be more effective if added to those techniques.</i>			
<i>Some of the intro stuff could easily be eliminated. Also specific chelation and colchicine therapies seem to be over represented.</i>			
<i>I would recommend this course to gain confidence in emergency situation and preventing emergency situations.</i>			
<i>Not too much.</i>			
<i>Being able to take home cases and examples.</i>			
<i>Saskatoon location!</i>			
<i>Better organization - more direction to instructions as to which topics they are covering, more direction to students during role playing, putting powerpoints in order they're presented.</i>			
<i>Clear start and stop time.</i>			
<i>Potentially incorporate CPR refresher as part of course.</i>			
<i>More hands on, less theory, although great course.</i>			
<i>Nothing I can think of right now. I enjoy it overall and feel like I got a lot out of it.</i>			
<i>More example cases ideally to be able to take home for study purposes. Some more variation within the cases. Re-organization of the slides/notes to match the flow of class lectures.</i>			

Would you like to take further courses given by Michael A. Prytula ND?		Yes	No
		15	1
What course(s) would you be interested in attending? Please check ALL that apply:			
E. A. T. (Eliminate Allergy Technique)		10	
M. E. T. (Microorganism Elimination Technique)		8	
M. R. T. (Mental Reprogramming Techniques)		4	
IV OZONE		10	
IV CHELATION		7	
CHEMICAL DETOX		11	
Is there a topic NOT listed that you would like to see a workshop given for?			
		5	8
If YES please specify:			
Prolotherapy			
Prolotherapy? PRP? Unsure where these courses are available.			
Prolotherapy, PRP			
Oral chelation protocols. Injection therapies.			
Port-a-cath/PICC emerg scenarios and standard of care/maintenance/cleaning etc. for when no home care etc.			
Injection therapy certification that would be approved for Canadian NDs.
